Automatic Driver Updater for Mac helps you to install the latest driver for your Mac. Mac is equipped with drivers, but if your Mac system is not up-to-date, you may not be able to use your Mac smoothly and effectively. How to install Mac driver depends on the specific driver that you need. Therefore, we need to update the driver for Mac. Automatic Driver Updater for Mac is the most complete and effective tool that can check whether the driver that you want to install on Mac is available on the Mac system. Then, it will automatically download the

#### What's New In?

The new version of the highly-acclaimed iPhone utility, CopyTrans Drivers Installer 1.3, is now available. The software has received the following updates: 1. Added the option to choose the iTunes installer file. 2. Added a new icon for the new version. 3. Updated the GUI style to use the same theme as the driver installer. 4. Some small bug fixes. CopyTrans Drivers Installer is a simple-to-use application that facilitates automatic installation of iOS drivers (e.g. iPhone, iPad, iPod touch) without the need of iTunes. Installation is not a prerequisite, so all you have to do is click the executable to run, after placing the product in a custom location on the hard disk. What's important to keep in mind is that the Windows registry does not receive new entries, and leftover files do not remain on the HDD after removing the program. If you have iTunes, QuickTime, Bonjour or other Apple products installed, you need to remove them in order to use CopyTrans Drivers Installer. It is possible to perform an automatic installation, or a manual one and choose the iTunes installer file. As far as program settings are concerned, you can ask the tool to automatically check for a new version, save the window position, and send errors to CopyTrans. These options can be restored to their factory values at any time. CopyTrans Drivers Installer quickly finishes installing drivers and uses low CPU and RAM in the meantime. We have not come across any problems in our tests, since the app did not hang, crash or pop up error dialogs. All in all, CopyTrans Drivers Installer offers a simple solution to all users who need to automatically install iOS drivers without worrying about iTunes.
