The association of myocardial infarction with congenital heart disease has been well documented. However, an unusual case of isolated ventricular free wall laceration with full-thickness myocardial infarction, diagnosed by transesophageal echocardiography, is presented. This case expands the anatomical list of congenital cardiac abnormalities that can cause myocardial infarction.1. Technical Field The present invention relates to an image forming apparatus, a server, a non-transitory computer-readable medium, a non-transitory communication system, a method, and a non-transitory program. 2. Related Art Recently, a copier and a printer (for example, an inkjet printer) or the like have been known as an image forming apparatus. In the printer, a configuration has been known in which a data processing unit is connected to the printer via a network to be able to transmit/receive data to/from the outside, thereby printing data received from the outside via the network and outputting a printed product.#!/bin/bash # Copyright (c) 2015-2016 NVIDIA Corporation # All rights reserved. # # Redistribution and use in source and binary forms, with or without # modification, are permitted provided that the following conditions are met: # * Redistributions of source code must retain the above copyright # notice, this list of conditions and the following disclaimer. # * Redistributions in binary form must reproduce the above copyright # notice, this list of conditions and the following disclaimer in the # documentation and/or other materials provided with the distribution. # * Neither the name of the NVIDIA Corporation

AUSTIN (KXAN) — A local advocacy group is at a loss for words after realizing photos of their once thriving grassy lawn at the State Capitol plaza were yanked out overnight. Jymmy Robison, with Austin Food and Fun, says they found out photos of their new green lawn, a project they worked so hard on, were removed at around 9:30 p.m. Saturday. Even though the State of Texas owned the grassy lawn, Robison says they didn't have the money to maintain it. "It's sad to see the progress that we've made to get this a green lawn and have it become a bare, brown, dusty surface," Robison said. "We are in the State Capitol, you can take a picture anywhere and take it, but it's just not something we're proud of and something that we don't want to see." Robison says she and the other partners behind Austin Food and Fun want to bring back the lawn as soon as possible and they'll be looking for additional volunteers to help grow the lawn. A spokesperson for the State of Texas told KXAN the grass lawn is on private property and the State has no jurisdiction over what happens there.[A comparative study of anticoagulant effects of heparin and warfarin and thromboembolic and hemorrhagic complications of cardioverters]. The anticoagulant effect of anti-thrombosis drugs can be measured by the corresponding blood coagulation time. A comparative study of heparin and warfarin was conducted to investigate their anticoagulant effects and associated complications in cardiac pacemakers. Blood samples were obtained from 10 patients with cardiac pacemaker implantation before and after treatment with heparin and warfarin for three weeks. The results indicated that the mean values of prothrombin time (PT) and partial thromboplastin time (PTT) under heparin treatment were prolonged to 21.4 +/- 1.7 sec and 35.4 +/- 2. edd6d56e20
