⏷ Keyboard macro manager is a utility for Windows which enables to create, save, load, and modify keyboard macros on the fly ⏷ Macros are shortcuts made of a sequence of keyboard strokes. For example: I have a shortcut Ctrl + X, that I use to cut some text on the web page ⏷ If you press Ctrl + X again, this shortcut will be loaded and will trigger the same action ⏷ It's useful when you have to do the same action a lot of time but you don't want to type it all again and again ⏷ To create a new macro you should choose a "macro" name, then "Ok", then you'll have to enter the keyboard strokes you want to perform to create the macro ⏷ To modify the macros that are already on your keyboard you should choose the macro name and "Modify" ⏷ To load the macros on your keyboard, you should choose "Load" and then click on the icon of the macro that you want to load ⏷ If you want to create a macro that executes in the background, use "Background" instead of "Ok" to save it ⏷ To load the macros that were created in the background, use "Load" and click on the icon of the macro that you want to load ⏷ Macros are saved in "Macros" directory, and is divided into "new" and "loaded" sub-directories ⏷ The maximum size for a macro is 4096 keyboard strokes. ⏷ Save a macro as a "macro file" (*.mac) ⏷ To create a macro on the fly, choose "New" and then click on "Ok" ⏷ To modify a macro that is already on your keyboard, choose "Macro" and then choose "Modify" ⏷ To load a macro that was created on the fly, choose "Load" and click on the icon of the macro that you want to load ⏷ To load a macro file, select the macro you want to load and click "Open" ⏷ Macros can be used in any program Limitations: ⏷ Macros cannot be loaded if the keyboard layout is changed or an application is launched that does not support keyboard macros ⏷ Macros are not stored on the clipboard (only keyboard strokes) ⏷ Macros cannot be used 1d6a3396d6

The new version of "Neat Notes" is now released! Main features: ⬜ Support for HTML5 specification, allowing you to save the HTML pages in the "Neat Notes" format ⬜ Much better performance ⬜ Support for new features like: tables, paragraphs, lists, text formatting, text wrapping, cut/copy/paste, and more. ⬜ Ability to save up to 50 additional pages inside one note ⬜ Ability to share notes via e-mail, text, or over the web. ⬜ Ability to send entire notes by email, with a note text, a template (to be used as a template) and a cover picture (to be used as the note cover page). ⬜ Ability to change colors of the text, font and background. ⬜ Ability to keep the current page from the text box by holding down the "Tab" key ⬜ Ability to repeat the text automatically (when selected) or individually (when copied) ⬜ Ability to use icons in the "Insert Tab" or "Insert Picture" dialog boxes. ⬜ Ability to save the formatting as a template, allowing you to apply that template to other notes. ⬜ Ability to mark a note as a favorite (highlighted with blue color) ⬜ Ability to mark a note as "parked" (highlighted with red color) ⬜ Ability to rotate text direction (right-to-left or left-to-right) ⬜ Ability to input special characters ⬜ Ability to quickly locate notes via "Bookmark" option ⬜ Ability to connect notes to notes via "Merge" option ⬜ Ability to import/export notes from/to other applications (for example: MS Word) ⬜ Ability to import notes from other "Neat Notes" format versions ⬜ Ability to export notes to the popular text formats: RTF, HTX, OTM, WRI, TXT ⬜ Ability to export notes with a custom extension (like.html) ⬜ Ability to export notes with a customized file name, date, or other information ⬜ Ability to export notes as XML ⬜ Ability to create notes with a custom identifier or a template identifier ⬜ Ability to quickly select a note by a numerical identifier (for example: 1,

What's New In Neat Notes 2005?

Neat Notes is a cross-platform note manager for Windows. It allows you to work with your data in a hierarchical tree-like structure. You can organize your notes into different categories (folders). All notes are created in MS Word-like text editor with support of: tables, paragraphs, lists, fonts, fills and alignment. You can also easily search and open your notes with one mouse click. Your notes can be stored in "favourites" folder or other categories. The application also provides syntax highlighting for your text, which allows you to work faster and easier. The user interface is intuitive and easy-to-use. It supports Windows XP theme and allows you to select a different theme. The program's interface is also skin-friendly and can be minimized to the system tray. You can also visually design your tree of notes. For each note you can arrange: fonts, color, size, background and header. All information in the notebook is saved in one compressed file, which makes copying and moving it easy. You can search your notes with one mouse click. You can visually organize your notes into categories by clicking on the category button. Every note can be marked as "parked", so that you don't accidentally delete it. The program automatically recognizes URL links starting with and ftp://. You can also use various picture formats (BMP, JPEG, GIF, PNG, EMF, WMF, and ICO) to mark your notes and save the image to file. The program supports many languages including: French, German, Italian, Spanish, Portuguese, Russian, Czech, Polish, Hungarian, Bulgarian, Greek, Romanian, Chinese (simplified and traditional), Finnish, Japanese, Korean, Thai, Thai-tw, Thai-th, and Vietnamese. You can type your notes in multiple languages and use special characters. You can save your notes as RTF, HTML, HTX, OTM, WRI, DOC, TXT, XML, and WRI Unicode formats. You can also export your notes to: RTF, HTML, TXT, TXT Unicode, DOC, XML and WRI Unicode formats. The program can import the following formats: RTF, HTML, HTX, OTM, WRI, DOC, TXT, XML, and WRI Unicode formats. You can print your notes with a preview. You can store a note as "favourite" to access it quickly. You can mark a note as "parked" to prevent accidental deleting. The program has built-in security to prevent unauthorized access to your notes. You can also bookmark notes with a mouse click. You can also use several open notes at the same time.
