Screenshots: Best regards, Pages Friday, November 17, 2012 Book Review: The Wolf Guardians by Sue Grafton From the Goodreads.com description: "Turning a crime novel into a Young Adult novel is certainly an interesting experiment. Is it possible to convey the plausible elements of the more serious story without making it feel too gratuitous for a kid? It is a great question. Sue Grafton tackles the issue in The Wolf Guardians by coupling two bookend stories with a tragic interweaving of the two. She sets it up for the end of The Tunnel when the fourth protagonist finds himself in an identical circumstance to what he was in the first half of the book, minus the presence of a family and a death. Grafton puts her protagonist in an equally dire situation as he witnesses a flight of geese grounded by a crosswind. The murderer is a wolf, a friend of the father, who escapes in the car with the kids and leaves the father for dead. Meanwhile, Kip, the protagonist in the second story, begins reading The Tunnel. This is a book about a teenager who ends up at a juvenile detention center after burglarizing a department store. While he's there, his father turns up. He ends up being sentenced to a juvenile detention center and shortly afterwards commits suicide. It is in the first story that the narrator meets the father and learns a lot about him, which really impacts the ending of the second story. The book was better than I expected it to be. There is some darkness in it that I didn't expect in a kids' book. It's
