F1History

----- - Results of all official races - Statistics of all F1 drivers and teams/engines (wins, podiums etc.) - Individual and team championships - Some others charts and tables Versions Description: ----- + Results of all official races from all countries + Statistics of all F1 drivers and teams/engines (wins, podiums etc.) - Individual and team championships - All the above in three languages: English, Spanish and French (post update) + All the above in three languages: English, Spanish and French (post update) + Supports all the year cars - both GP2/3 and F1 (requires extended efile) + Two (!) User themes (White and Blue). Only for English and Spanish, sorry + Four (!) Button layouts (HotRod, SaF, F1, GST) + Frame rate, video resolution and cursor rate customization + Clock (miliseconds) - Supports all the year cars - both GP2/3 and F1 (requires extended efile) - Two (!) User themes (White and Blue). Only for English and Spanish, sorry - Four (!) Button layouts (HotRod, SaF, F1, GST) - Frame rate, video resolution and cursor rate customization - Clock (miliseconds) - Supports all the cars - both GP2/3 and F1 cars (requires extended efile) - Two (!) User themes (White and Blue). Only for English and Spanish, sorry - Four (!) Button layouts (HotRod, SaF, F1, GST) - Frame rate, video resolution and cursor rate customization - Clock (miliseconds) F1History is a great collection for all the Formula1 lovers, especially for those who are interested in the results of the past and statistics. F1History contains all the official race results from the 1950 British GP, statistics of all F1 drivers and teams/engines (wins, podiums etc.), the results of individual and team championships and some other stuff. NOTE: 1st step: Install the program with f1history_setup_v1_16.exe 2nd step: After that run update_e.exe and install it to the same directory (default is: C:Program Files\F1History). F1History Description: ----- - Results of all official races - Statistics of

F1History License Code & Keygen

F1History is a program with rich content which will allow to follow all the Formula1 race results (napoleonic, world, European, cup etc.) as well as the statistics of all the drivers and teams. Have fun! • In the future, I will try to add the statistics of all the types of F1 races (napoleonic, world, cup etc.)• It would be great to include some info about every team and driver• It would be great to include also information about the brand new teams and drivers• It would be great to include all the individual and team championships. Meta Like this: LikeLoading... Search for: Proud cpl. of 50/50 club. 25th May 2000 - 4th May 2002 I have an old program called Form2Win for SCO that finds Formula 2 and Turbocharged Formula 1 cars. It is the only popular software that allows you to find Turbo F1 cars and F2 cars. I was programming it for around 10 years but I don't have the time to maintain it so I have uploaded the source code to pastebin. Please feel free to test it. This is the latest version (v1.6) and it doesn't need any SCO language at all. You should just download the zip file and extract it to the directory where SCO is installed. I don't support it anymore so don't try to contact me. If you have any suggestions or bugs you should open an issue at Like this: LikeLoading... About Form2Win I have an old program called Form2Win for SCO that finds Formula 2 and Turbocharged Formula 1 cars. It is the only popular software that allows you to find Turbo F1 cars and F2 cars. F1History Full Version

It's a collection of old and new F1 history data. It consists of 2 parts: Statistics Race results Statistics part is divided into some categories. Percentages are automatically created for every player. Most average- and best-results which are not in form of 100% are hidden (the name of the player, the year of the data, the winner of the championship etc.). On the other hand, there are some average results which are not 100%. The percentage is added only to the players which participated in the race. I hope that you will like this program. If you have any suggestions, don't hesitate to contact me. I will do my best for the development of F1History. Snapshot-show Screen-snapshots of F1-Overview and F1History. Hide/Show, Enable/Disable If you want to hide F1-Overview or F1History, you have to disable it in the SETTINGS. It is a "STANDARD" feature which can be enabled and disabled with a single click. Normally, a "STANDARD" feature is not user friendly but in this case, everything will be OK in the user experience. Because only a small amount of the F1 drivers are still alive, it is impossible for them to show me all the statistics that I want to see. But also, it is impossible to show everything for all the F1 drivers. The "STANDARD" features are a compromise and that is why the STANDARD-features are a "best-in-class-feature". Please, keep in mind that you are always able to hide the "STANDARD" feature with a single click. It will not hurt you. The problem is that F1History does not know that the feature (Hide/Show F1History) was disabled. That means, when you click on the button F1History displays the old F1-Overview and the old F1History shows the old data which is just the result of an old F1-Overview. If you are not sure how to react, just ignore it or reset the statistics. After that, click on F1History and press the button "Show/Hide". Please, keep in mind that it is impossible to enable/disable every feature with a single click. They are not buttons and cannot be pushed, so, if you want to enable or disable one,

What's New in the?

----- All the information about the driver, his team, his car, the engine manufacturer, engine, chassis, tyres and circuit. If you are interested in statistics, visit the statistics section. Enjoy! published:17 Dec 2017 F1History Driver Stats 2018 It's been a fun weekend at the Autosport International - introducing F1 History's latest cars, drivers and statistics additions.
