xsplit broadcaster 3.10 [license key 100%] working [xsplit broadcaster 3.10] working [xsplit broadcaster 3.10] working Sorry, was not expecting you to install again. I know you haven't bought this program or that program. What happened is that you downloaded the key from the company and used it. You haven't bought anything (the only item that you downloaded was the key from the company, and that doesn't mean it is your own key, it is key that came with the program, not your own key). How to get the key from the company is down to you.
