I have always been hard to photograph so I was really looking forward to spending a day with Don Jenkins & the E-Z GO! Photobooth! Don has been a great guy to work with & he's included many extras in this fun & portable package. Don's biggest contribution was the creation of an elegant solution for taking multiple 4x6 glossies from a roll-and-shoot. This is especially appealing for me because we were in the middle of no where so getting a "good" shot is very hard! I showed Don how to set up & use the U-Turning Auto focus. We had a long talk about bringing in extras like a reverb knob & spring-loaded grip for holding still targets. In the end, I had a chance to play with everything. I took some really great shots, actually everything seemed to work great & I was so happy. Don made the whole process easy & you couldn't tell that I'm totally new to digital photography! If you would like to see some of the pics I took, visit my new Facebook page: [OLD SCHOOL EQUIPMENT FACEBOOK PAGE](#) I am happy to announce that I will be the official photographer for my friend Mark's & Trisha's upcoming wedding on Sept 30th 2008 at the Washington Marriott Marquis Hotel in Washington DC.

The E-Z GO! Photobooth: This was going to be Don's latest invention. It all started when he demoed it at an event where they had a bunch of interesting products to show off. His first device stored images from a series of photos he took, each image in turn being a cross-section of the entire picture. All these images were then displayed as a 3D photo when he turned his head. For the first kit Don did, it was only a color printer. Later they added 09e8f5149f
