Once you have bought your music, DVD, video etc.. from somewhere you would like to have a way to keep track of it. Not all CD's are sold, you may have a few left over. It would be nice to be able to organize them into a single place and make an audio cd/dvd. And that is where Apollo Audio DVD Creator is going to come in to play. Apollo Audio DVD Creator is a freeware software which allows you to create a complete audio cd/dvd with your iTunes music, DVD's, video's or anything you like. Simply add your music, DVD's, videos or other files to the program, set it to what media to include and pick a cover theme and you are done. Not only that, you can customize the DVD like to create a menu for your Audio CD/DVD with a simple click. After this is all complete simply click on the 'Add to Audio CD/DVD' button and you have created a complete Audio CD/DVD. You will be prompted to name the Audio CD/DVD and where to burn it and when it is complete simply click on the 'Burn Audio CD/DVD' button and your new Audio CD/DVD is ready to be played.
