2.3.1000.25149 Crack

Free .Q: Not able to open

default store view from

magento url My problem is : I

installed magento on my local

machine (lamp server) and

then have deployed the same

on my local server (ubuntu) by

using php -f magento deploy

and everything worked fine and

its working fine for my local

---

site, but when it comes to the second site (local server) when i try to open the store by giving the URL as it gives me the 404 not found error page which shows below The requested URL was not found on this server However, if i give the address
