What's new:

A collection of fairy tales by the mysterious Mrs. Bessemer is given several new lives in this graphic novel. Summary In the anthology simply entitled What They Feared is Feared, a dystopian satire of modern society that is funny, didactic, horrific, and highly entertaining, the tales mingle with that of the more magical characters in the tale. Not just a satire, but a horror story. Cleo can never let herself get close to anyone. She can't afford to trust anyone. She protects herself by using magic. She is a pirate and when it comes to love, Cleo lives by her golden rule: "Get the treasure, kill the curse." Orphaned at eight, Cleo is alone. She spends her days dodging churches and museums and study groups. She lives in hope that one day, with enough distance from her uncle's zombie-infested plantation mansion, she can figure out what happened to her father. When the girl Cleo is being looked after by a human orphanage, she visits the train depot and as she's contemplating, alone, her options, the signal lights on the tracks suddenly start flashing, and she finds herself on a

boat. But the boat has no crew and suddenly the ship dumps Cleo off on the treacherous Yellow River. Cleo quickly makes a deal with a local witch to trade her life for a new one—but it proves to be an expensive exchange. She has no money, but she also has no friends, no family, and no home. She survives solely by turning tricks on the streets of the city and by stealing. Cleo feeds herself with the meals brought to her every night by a waitress in a diner. Eventually Cleo works her way to an office where she finds an old playwright who becomes her mentor. He's kind, he's wealthy, but he has problems of his own. As a young man, he was the victor in a contest to win a prize that required he compete with seven young writers. The judge in the contest realized that he needed to decide which one would be a worthy winner of the prize and which one should be deemed to have lost the contest. To solve the predicament, the judge decided to let the loser write a new play that would go on stage if the winner's didn't. To make matters even trickier, he had forgotten exactly which
