What's new:

- **Watch The Game Widget**

The ability to watch any game without leaving the game. Not only that, but you can watch a game that hasn't been released yet too!

- **Matchday Improvements**

See how your team performed in their last match, and on the day you played them too. You also now get in-match Player Alerts, which will tell you about various game conditions - overs, weather, goalscorers, and more.

- **Pre-Season Competition**

For the first time, pre-season competitions are included in the game, although only two teams are represented in the box. As pre-season champions are now crowned, this is a fun-filled way to round off your year.

- **Hidden-and-Surprise XIs**

Give your own custom XIs to your teammates - up to nine, including a surprise inclusion of a retired Pro.

- **Quickening the Play**

Set-pieces have been given a dramatic overhaul. Flag kicks become hyper-accelerated affairs, and long throw-ins now inflate into a scream of over-layered action.

- **New Cue Cards**

Cue Cards, which are used in DJ sets, now feature a new 2D action shot, can be changed, and feature wild and colourful animations. Instantly, cue cards seem party to be the new special items of the future.

With a brand-new engine and revolutionary gameplay, FIFA 22 offers enhanced authenticity, an all-new game engine, global online and offline play, and player intelligence to create the most complete and authentic football experience. The second generation football engine is the foundation of FIFA, and the development of the new engine was the primary driver behind FIFA 22's gameplay advances. AI improvements, new animations and player behavior have been implemented at every level of play, making FIFA 22's gameplay the most organic and authentic in the series. Take Control With "Take Control" mode, you can create your own path to glory. Take on your career as a manager by hand-picking the most talented players, even build and train your very own squad. Football is the ultimate team sport, which is why the "Take Control" mode returns with an all-new off-pitch experience, including a brand-new pitch editor, a manager mode and, for the first time ever, a mode allowing you to build and manage your very own stadium. It's as close to the real thing as FIFA has ever been. Home Team Home Team has been revitalised and takes on a more tactical approach by providing a complete overview of your team's progress in a season. View your team's current league position and the results of previous games. All-new animations and player control allow for more realistic player interactions. New play-styles have been introduced, allowing for more fluid, flexible, and realistic home team approaches, including 2-3-5-3 formations and 4-4-2-2/4-3-3-1-2 as well as 4-3-3-1 formations. Realistic Zones The Realistic Zones system has been completely redesigned to provide more intelligent artificial intelligence for player and ball movement. With more intelligent automated setup, zone shape and intensity, as well as new dynamic blocking and defending AI, FIFA 22 gives you more control of the game and the action, in your hands. New defensive transitions zones allow for more realistic vertical play and dynamic blocking, while the new offside system offers increased perceptual effects and a much more natural feel. New systems like Vision mode provide players with real-time visual feedback and enable intelligent defensive actions. New all-new systems like Real Vision are a natural evolution of the vision-based approach
