==== Periodic Calls - There are times you can make large amounts of money for a short period. These are called Periodic Calls. You can set them up to occur any time you want, as often as you want. Call-by-call Stats - Use the stats to compare your performance in Periodic Calls against others to see how your calls are doing and if you're meeting your potential. Links - Links allow you to click on a new call and make it your calling station. Your callers are directed to your new link if they don't choose your link and ring the station you have selected. One-

on-One Chat - You can also chat with callers on these calls. A private link will be set up for you between the caller and you. Message Center - Text messages that are sent via Text Messaging are accessible from the Message Center. To set these up, Text to SoftTouch, type the message and click Send. Feedback - You can send feedback to new callers and to all callers to let them know about their experience. This helps callers decide if they want to call you again. Call Forwarding - You can set up call forwarding. This allows you to set up your name as the telephone number you want to receive. So, if you don't want to be bothered by people calling after hours, you can forward the calls to your cell phone or office. Split Calls - Split Calls are where callers call into multiple stations. Let's say you have called an 800 number on 8:00, 9:00, 10:00, and 11:00. You can easily call any one of these calls any time

you want. The station rings, your link is assigned and you make the call.

SoftTouch is a Voice Mail and Chat that is designed to help you get results faster and easier than ever before. Unlike free Voicemail services, SoftTouch will not waste time dialing long distance phone numbers. In fact, you don't have to pay long distance calls from your lines at all. SoftTouch's cheap calling plans mean you can get started without wasting money. SoftTouch Review: The best part about using SoftTouch with Voice Mail and Chat Software is that it will save you money and time. If you were using free Voicemail services, you would have to waste time dialing long distance numbers. When using your own telephone lines, you don't pay any long distance fees. That means a lot less money wasted and a lot more freedom to spend more time doing what's important to you. With SoftTouch you can

get started in just a matter of minutes with telephone, Internet, and Voicemail. SoftTouch sends and receives all of its incoming and outgoing calls automatically. You won't have to worry about call forwarding or phone service problems. SoftTouch uses the Internet to make all your calls to your telephone lines. It works great on all computers and mobile phones. You can dial the free local number you want to use to make a call and then just as easy send calls you want to make to any other number around the world. Starting Out You can start making money on a very limited budget. SoftTouch will work on all your Internet, cellular phones, and landline phones. As long as you have your own telephone lines, you can start making money right away. Many of our customers choose to use our telephone calls to offer free fax and even to offer money transfers. No matter how you choose to use SoftTouch,

it will not eat up your time. You won't have to keep a list of telephone numbers or spend days and weeks dialing and talking to people. Software Versions: There is a SoftTouch for Windows, a SoftTouch for Mac, and a SoftTouch for Android. They're all exactly the same as well. You don't need to download any of them. The software is always up to date and the software and hosting is free. SoftTouch will show you and you know everything about your package from day one. You will have complete control over everything in your packages, from the hosting and the software to the telephone numbers and the money making options you choose to offer. Free Trial You won't pay a single penny to
