The Extended Unified Acute Care program: New care model for less expensive, efficient care of patients with chronic disease. To provide patients in need of acute and subacute care with a seamless and more cost-effective alternative to traditional hospital-based health care delivery. Design of the Extended Unified Acute Care (EUAC) program consisted of: (1) creation of an entirely outpatient, university-based model for coordinated care, with improved operational efficiency, and (2) the design of a network of multidisciplinary primary care clinics. Retrospective analysis of the costs of current programs, Centers for Medicare and Medicaid Services. Thirty-four thousand three hundred and twenty patients who were members of the American Medical Association and received care at EUAC centers during fiscal years 1999 and 2000. Creation of the EUAC program. Eighty-one percent of patients received primary care as outpatients and 99% received subacute or acute care in the EUAC program. Standardized mortality ratios indicated there was no difference in the probability of dying in the EUAC program and the general population. Adjusted hospitalizations decreased by 44%. Adjusted average per-capita costs for care in the EUAC program were approximately half of the inpatient acute care cost for patients enrolled in Medicare. The EUAC program provides a comprehensive, cost-effective alternative to traditional acute care, resulting in improved patient outcomes.Q: Make file of any file with Python I have the path to my file, I want to make the same file without all the other file in the list. I've used the code below, but it does not work, but I don't understand why. for file in os.listdir("path"): file = os.path.join("path",file) #get the extension of the file ext = os.path.splitext(file)[1].lower() if ext in ['.txt']: with open(file) as tmp: print(tmp) #same code for all files Note, I want to generate a txt file with all the content in every file, I need them for my code. Thanks. I'm using Python3, Windows 10 A: You have the code for creating the file with the main
