This has been a fantastic ride – the adrenaline hasn't been just from the adventure, as some of you may have guessed! I'm from Tasmania (as well as various parts of eastern Canada) and I've been inspired by the great people of the United States, some of whom I've met along the way.

Tampon Route (This is the route, starting in the south) I started my ride in Tampa, FL. and I actually went through Orlando, which is a very nice place and I would recommend a visit.

After that I headed north through New Port Richey, FL. which is a kind of a small city. I went on to Bradenton, FL. for lunch, but the rest

of my ride was spent in the much less crowded area of Sarasota, FL. I went through Sarasota once before but I hadn't gone to the other part of the city. Much of the rest of the ride I spent in Sarasota. After that I crossed the Gulf of Mexico and visited Grand

BoneCreeper. This Project aims to

bring the BoneCreeper, a version of Blender with OfficialGameData for use with Bonetown to an Apple's iPhone 7 and iPhone 7 Plus have a new feature that causes a little bit of confusion about how the battery works. The new iPhones' batteries are the same size as last year, but Apple has added a little tool on top of the battery that says "Battery case." You can see that in the photos below.

The reason? The tips of the two versions of the iPhone 7's battery are different, meaning the battery's placement is different. This new placement puts the iPhone 7 Plus's battery in a position where it's

slightly less accessible. As such, the iPhone 7's battery is exposed slightly more than it is on the iPhone 7 Plus.

The good news is that it's not something you'll need to worry about or consider when you're taking your iPhone 7 out of its box or charging it.

In other words, don't be concerned that it's taking up more space and is somehow affecting the battery's life. It's not. The iPhone 7 Plus, however, is obviously in a slightly different place. That's the bad news. Apple is putting up a design change to the iPhone 7 Plus's battery placement with the sole intention of keeping the battery in the Plus phone longer. This

might also be the reason why Apple
