Step by step tutorial to remove Wirecast from macOS, Windows, Mac OS.Q: How to use Role based Security in Asp.net MVC3 i am trying to figure out what is the best way to

use role based security in mvc3? i am using forms authentication and i want to use roles. i am setting roles in aspnet_Users table in the database. So my question is that how is the best way to call methods related to roles like: User.Is InRole("Administrator") when i am implementing user login. Or is this implemented in the MembershipProvider and that's what i am not

realizing? A 6d1f23a050
