But I think all the meat of the game will stay the same, meaning we'll have our showdowns and our run and gun fun. In fact, what you'll notice is that the speed of the run and gun play that is part of the basic package of the game is perhaps even more evident in the new edition. Now there's a lot of stuff going on and - for example - for a variety of different reasons there are several types of traps. And as such there's more variety in the way they're played. And the relatively lengthy cinematic trailer that you'll see at the end of this preview is a good example of that. The fight itself is also a little more intense with the parry/block/thrust move being changed to a dodge move. This really helps with the tension of the fight because while your opponent may be dodging and dodging when they're dodging it's going to be something of a guessing game as to when they're going to make their thrust. The game has also been tweaked a little to the point where you can actually do some double-jumping which makes it a little easier to dodge the incoming attacks. And now there's a lot more use of the terrain available. The cover system is also more advanced and the zombies no longer walk and no longer take on a zombie state. They can also move faster. This means that dodging them is a lot more effective. The new edition of Zombie Revolution on Playstation 4 is a much more in depth game than the one currently available on the digital store for the Xbox One. So, while I'll be doing reviews on the PS4 version
