

Match Broker, Match Broker 7, Match Broker 9, Full Download, Tutorials for Match Broker 9, Match Broker 10, Match Broker 8, . How can I access this in my own code? When I run the test my code works well. I am getting the correct answer. But if I do this test with my own code it gives me an error. I am not getting the correct answer. I don't know why I am getting this error. Please help me with this. Thanks Use the "middleman" approach to map to another database and you can access it through the middleman. You can do this using the CURSOR API.
