## **HD Online Player (Need For Speed Movie Dual Audio 720p)**

HD-PVR 60 Gaming Edition is the world's first web based H.264 PC camera designed to stream online gameplay, record at 1080p HD and at 60 frames per second (FPS) with lag-free pass-through. It's software based, so it will work with any PC. The H.264 encoder is built into the player and the software does not require any separate encoder. Record game play using the integrated microphone, stream gameplay using the built-in 5-port Ethernet switch, use Twitch or YouTube live streaming and upload game videos to YouTube with the included HTML5 app. Live streaming to YouTube and to Twitch is also available using the Broadcaster feature.

The H.264 encoding allows HD playback in Blu-ray players and home theater systems. Stream gameplay to YouTube, Twitch, and Facebook, all with a web connection. If you want to try out this awesome H.264 online live streaming and recording system, here is a free 60 day trial CD for you to download and use. Here's a console that's changing the way we perceived virtual gaming. Xbox 360 Kinect gives you what defines a great gaming experience-realism. And that it does that with its unique Full Body Gaming and Voice Control technologies-which means that a controller is the last thing you need for this game. It comes with an impressive 250 GB of storage space and a whole range of specialized features. So you can race cars, fight monsters and shoot the bad guys-all with a swipe of the hand and a few air-kicks! With Xbox Live's advanced entertainment technology that responds to the sound of your voice, you can control HD movies and play, pause and rewind your favourite television shows. What's more, you can even play your favourite Kinect and controller
