Currently, there are three packs available: The Grand Canyon pack includes all components needed for creating space-like scenes. If you are a beginner in 3D Studio Max, this is the perfect way to start. Grand Canyon includes the Cinema 4D scenes package, textures, materials, and geometry. Create a 3D scene in Cinema 4D, export it and import it in Studio Max. The Sphere pack includes everything you need to create space-like scenes.

Use only the spheres component, the Sphere scene package, textures, materials, and geometry. When everything works as expected, you can export your scene and import it to create the desired environments in Maxon's top-selling 3D modeling software, 3D Studio

Max. The Shadow Zone pack includes everything you need to create space-like scenes with also the addition of light cones. Use only the Shadow Zone component, the Shadow

Zone scene package, textures, materials, and geometry. When everything works as expected, you can export your scene and import it to create the desired environments in Maxon's top-selling 3D modeling software, 3D Studio Max. A lot of us have been using the problem-solving audio tools in the industry for a long time, and now they are available in cinema 4D. This is the perfect solution for anyone who wants to record audio on the set, and whose project involves performance capture, dialogue recording, music recording, scoring, sound design, and even film and tv post. Ive talked to professionals in the industry and I know that theyre using this kind of products all the time. I feel privileged and honored to have the opportunity to work with these sound-production wizards! 5ec8ef588b
