## Batch Master

Batch Master is a completely new concept in traceability, used by several of the world's largest TCM herbal suppliers. But with a user friendly interface and fully integrated workflow, Batch Master allows you to manage your inventory, sales, customer accounts, goods received, payments, stock levels, waste, patient/customer files, lab data, business stats, shipping, distribution, price comparisons, etc all at a single click, from your desktop or mobile device. "Batch Master" allows you to send orders via the internet or through your iOS/Android tablet or mobile device and automatically process the order. All that you need to do is type in your product and quantity and "Batch Master" does the rest, producing your label, invoices, letters, invoices, delivery notes, etc. Traceability is an essential tool in all businesses, when something goes wrong it is your responsibility to ensure that the issue has been traced back to its source. So with "Batch Master" you can identify, trace and prevent any inventory, stock or patient issues before they arise. Some key features of Batch Master:  1 click traceability, you never need to leave the application.  Complete stock traceability to any product, to any customer, automatically at any time.  Batch Master will auto allocate batches to customers with minimum of input from you.  Batch Master will automatically report if any batches are in excess, or in demand.  Batch Master will keep a permanent record of all transactions that were carried out.  Complete history of each batch from you to your supplier, with transactions that were carried out.  Complete view of your invoices, orders, payments, credit notes, payments that have been made, etc all from one place.  You can also carry out different workflows such as your own invoices, payment, delivery notes, payment reports, tracing reports, etc  Quicksearch to find your traceable data quickly.  Send new or updated customer data in bulk with "Batch Master"  Use "Batch Master" for a complete set of your inventory data, full of useful details.  List all your invoices, payments, invoices, deliveries, payment reports, delivery notes, etc.  Load any transaction into your Batch
