Movie Bhala Pae Tate Sahe Ru Sahe Odia Film 19.Q: Display inline list, show all products on the first line and the next products on the second line I have a list of products displayed in a horizontal list. I want them to be displayed vertically, in this case I just want the first product to be in the first line and the next one in the second line. But without any other spacing, any help would be appreciated. The structure of my HTML is: `ul.product-list { list-style-type: none; margin: 0; padding: 0; overflow: hidden; background-color: #666666; } li.product { float: left; display: inline; } li.product:nth-child(even) { background-color: #c8c8c8; } li.product-image { width: 64px; height: 64px; margin-right: 8px; margin-bottom: 8px; } Name Name`
